

FEATHERLINE

Thin and light as a feather! Volume up like magic!

FEATHERLINE

Solution For Those Who Suffer From Thinning Hair And Mild Hair Loss

FEATHERLINE is manufactured by using a micro thin-weft machine developed by Hi-MO. The micro thin weft machine knots the hair the same way as hand knotting, which allows the weft to be lighter and slimmer than current extensions the market.

Thin And Light As A Feather! Volume Up Like Magic!

Technology Beyond Limit

The FEATHERLINE's groundbreaking thin weft technology allows thin hairs to create natural hair volume.

ATTACHMENT PROCEDURE

Visit our website for more details
www.himo.com

STEP. 1

Fix the FEATHERLINE with the tweezers in the desired position.

STEP. 2

Hold 20-30 hair strands to fix the FEATHERLINE with your hand.

STEP. 3

It is important to place the FEATHERLINE as close to the scalp as possible.

STEP. 4

Put a needle through the micro ring and from the bottom-up hang the hair that you are holding on the end of the needle.

STEP. 5

Pull the hair through the micro ring.

STEP. 6

Press the micro ring by using the pliers.

STEP. 7

Fix the remainder of the hair in the same way to complete the hair style

REMOVAL PROCEDURE

STEP. 1

Check the position of the micro ring by lifting the hair on the part that you wish to remove.

STEP. 2

Place the micro ring in the pliers' blade and press it in the opposite direction of the micro ring to remove it.

STEP.3

After removing the remaining part through the same procedure, remove the FEATHERLINE from the hair.
